

Remarks

The above-referenced application has been reviewed in light of the Examiner's *ex parte Quayle* Office Action dated March 21, 2005. Claims 1-20 have been allowed. The Examiner's allowance of all Claims is gratefully acknowledged.

Prosecution on the merits is closed, and the application is in condition for allowance except for the specified formal matters. The Examiner's withdrawal of the objections is respectfully requested in view of the above amendments and the following remarks.

In accordance with the Office Action, Figures 1-3 of the drawings drew objections for lack of prior art indications. Accordingly, substitute sheets for Figures 1-3, each indicating "Prior Art", are submitted herewith.

In accordance with the Office Action, the Title of the invention drew an objection for descriptiveness. Thus, the Title has been amended in accordance with the Examiner's kind suggestion.

In the Drawings:

Please substitute the attached Figures 1 through 3 for those originally filed.

Conclusion:

Accordingly, Applicants respectfully submit that this application is in condition for allowance. All issues raised by the Examiner having been addressed, withdrawal of the objections and an early and favorable allowance of this case are earnestly solicited.

Respectfully submitted,

By:
